

Covenant Fellowship Declaration

I believe that the Church of Scotland is moving away from its roots in Scripture and the Westminster Confession of Faith. I believe that the time has come for the creation of a 'Covenant Fellowship' within the Church. This Covenant Fellowship will draw together those who believe that the Scriptures, in their entirety, are the Word of God and must provide the basis for everything we believe and do. This vision is nothing less than the reformation and renewal of the Church of Scotland, in accordance with the Word of God and by the empowering of his life-giving Spirit.

I hereby express my support for the Covenant Fellowship.
